

Electric Foot Massager Tub – Deep Relaxation

Description

Electric Foot Massager Tub – Deep Relaxation with Heat & Bubbles | Portable Foot Spa Bath for Pain Relief & Improved Blood Circulation

Experience ultimate relaxation with the **Electric Foot Massager Tub** designed for soothing foot care. This advanced foot spa bath combines heat, bubbles, and gentle massage rollers to ease tired feet, relieve stress, and improve blood circulation. Ideal for home use, it helps to relieve foot pain caused by standing long hours, poor circulation, or fatigue.

Crafted with an ergonomic design, the tub is easy to operate and features adjustable temperature settings and multiple massage modes. The deep basin provides ample space for comfortable soaking, while the anti-slip bottom ensures safety during use. Perfect for daily self-care or therapeutic foot massage at home.

Advantages

- **Soothes Tired Feet** – Relieves pain and discomfort from long standing or walking.
- **Improves Blood Circulation** – Stimulates circulation to promote better health.
- **Multi-Function Massage** – Combines heat, bubbles, and massage rollers for a complete spa experience.
- **Portable & Compact Design** – Easy to store and carry for home or travel use.

- **Easy-to-Use Controls** Adjustable temperature and massage modes for personalized comfort.
- **Durable & Safe** Built-in safety features with non-slip feet and ergonomic design.

How To Use

1. Place the foot massager tub on a flat surface.
2. Fill with warm water up to the recommended level.
3. Plug in the appliance and turn it on using the control panel.
4. Adjust the temperature and massage mode as desired.
5. Sit comfortably and place your feet into the tub.
6. Relax for 15-30 minutes while enjoying heat, bubbles, and massage rollers.
7. After use, switch off the device, unplug it, and empty the water.
8. Clean and dry the tub for future use.
